## HARMONS IS PROUD TO BE THE PRESENTING SPONSOR FOR THIS YEAR'S CRAFT LAKE CITY DIY FESTIVAL.

We started out as a local, do-it-yourself business back in 1932, and though we've grown since then, supporting and providing local offerings here in Utah is something we're still extremely passionate about.

There are a lot of great reasons to shop local, including extra-fresh flavor, hand-made quality and unique tastes and experiences. But we also believe in the bigger picture of supporting others within our community—we think it makes us all just a little bit stronger. That's why 100% of our profits from the festival will be donated to the Utah Food Bank.

We hope you enjoy all the wonderful, local experiences the festival has to offer. If you get hungry, stop by our booth for some delicious food produced right here in our community. And the next time you're shopping at Harmons, look for our Local symbol throughout the store for some homegrown goodness.

# SCIENCE & TECHNOLOGY

## DIY ENGINEERS

DIY Engineers craft compelling projects by hand using science and technology tools. This year's highlights include circuit-bending, robotics, futuristic amplifiers, LED fiberoptic art, 3D printing, gaming, computer animation, tech demonstrations, interactive displays and much more. Participating companies include The Wasatch Institute of Technology, The Educated Robot, The Leonardo, SpyHop and Zaniac.

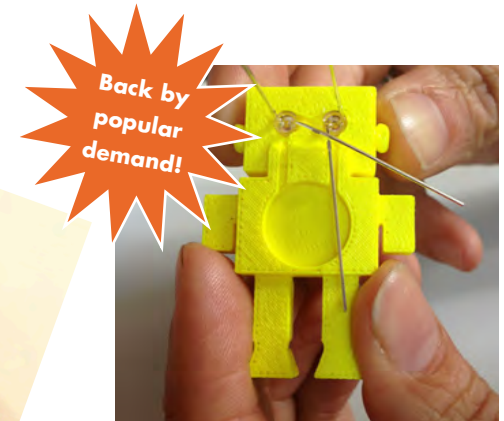

Craft Lake City will once again present two exciting Science & Technology projects for attendees.

## PROJECT #1: ELECTRIC ORIGAMI

Experience the centuries-old art of Japanese paper folding with a modern twist. Bring your paper creation to life with LED Circuit Stickers! Using the design principles of electric circuits and origami, volunteers will teach you how to use conductive tape and LED stickers to make an origami cat with light-up eyes. Once you've mastered the skill of building a simple circuit with the easy-to-use supplies, you can let your imagination run wild and build circuits on almost anything. Recommended for all ages.

## PROJECT #2: 3D-PRINTED ROBOT LED NECKLACES

Become a DIY Engineer by creating electronic craftworks at Craft Lake City's table inside our Science & Technology Building. This interactive craft consists of making a robot necklace with glowing LED eyes. Using 3D-printed robot charms, for a small fee, visitors can learn how to solder LED lights to the robot charms so their eyes light up. A string will then be attached to the robots, and participants will be able to take home their very own robot accessory, preserving memories of their enlightening day at the Craft Lake City DIY Festival 2014 for years to come!

# CRAFT LAKE ARTIST

## WORKSHOP SERIES 2014

# CELEBRATION

## OF THE HAND

Craft Lake City conducts workshops throughout the year, taught by Craft Lake City DIY Festival alumni. These artist workshops are the bridge between the art that the public sees at our annual DIY Festival and the exhibitors. The workshops are designed to bring the tools of self-sufficiency to the public by teaching them how to create their own inspiring, customized works of art, in hopes, also, to instill an appreciation for handmade items in workshop participants.

Craft Lake City coordinates and hosts workshops at West Elm in the City Creek Center. New for 2014, workshops are being held at the Natural History Museum of Utah. Craft Lake City will offer five more workshops for 2014:

**Wed., Oct. 1** – *Natural History Museum of Utah presents: Bone Wreaths* with Marcee Blackerby. Make your own Halloween wreath using animal bones, seedpods and other spooky items found in Utah. 7 p.m. to 9 p.m., \$18 for non-museum members, \$16 for members.

**Thurs., Oct. 9** – *West Elm presents: Chocolate Making* with AJ Wentworth of The Chocolate Conspiracy. Learn to make delicious truffles

and hot chocolate just in time for the winter season. 6:30 p.m. to 8:30 p.m., \$10.

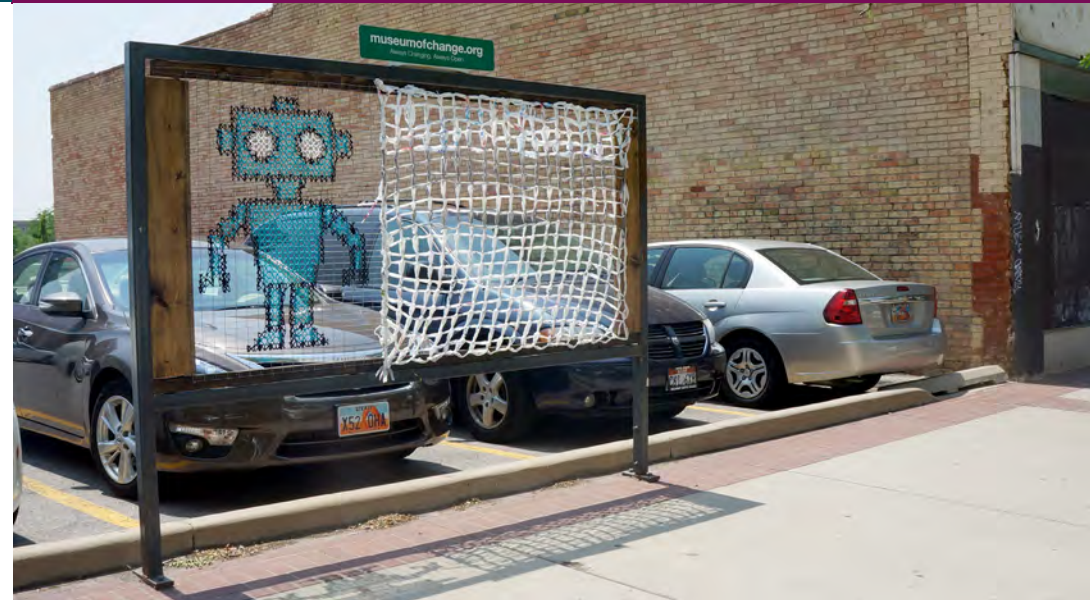

**Wed., Nov. 5** – *Natural History Museum of Utah presents: Felt Dinosaurs* with Stacie Van Arsdale of Little Teeth Marks. Learn how to make a felt dinosaur as a gift or holiday ornament for your tree. 7 p.m. to 9 p.m., \$18 for non-museum members, \$16 for members.

**Thurs., Nov. 6** – *West Elm presents: Learn to Crochet* with Rachele Smith of Hook'd Crochet. Rachele will be teaching the basics of crochet. Before you know it, you'll be able to crochet your own pair of socks! 6:30 p.m. to 8:30 p.m., \$10.

**Thurs., Dec. 11** – *West Elm presents: Caramel Apples* with Alexis Waters of Sweet Janes. Learn how to create this tasty treat for your holiday gifts. 6:30 p.m. to 8:30 p.m., \$10.

Craft Lake City recently began a partnership with the Salt Lake County Youth Services, offering a Youth Workshop Series to students registered in the Salt Lake County Youth Services After School Program. Fall semester dates and locations for the Youth Workshop Series are TBA.

Visit [craftlakecity.com/workshops](http://craftlakecity.com/workshops) to register.

July 2014 marks two years since Craft Lake City began its partnership with Steven Goldsmith and the Temporary Museum of Permanent Change.

Together, our goal is to beautify, enrich and enliven downtown Salt Lake City spaces through a walkable outdoor gallery titled *Celebration of the Hand*, which utilizes permanent steel frames known as "plakats" (the German word for billboard).

The plakats are installed adjacent to the sidewalks in downtown Salt Lake City, and are located on the North and South sides of Broadway (300 South) between 200 West and 200 East and on cityside streets.

This summer, the plakats feature upcycled artwork created by Craft Lake City volunteers, Kristin Baird, Janet Lee and Craft Lake City Development Coordinator Rachel Hayes. The Celebration of the Hand exhibit is located just outside Craft Lake City DIY Festival boundaries and will be available for viewing during the festival on Aug. 8–9, and throughout September 2014.

Find the exact locations of all 17 plakats through the Craft Lake City Mobile App.

## WITH CRAFT LAKE CITY

# THANK YOU

Craft Lake City's Executive Director, Angela H. Brown (left) Marketing Manager, Karamea Puriri (right) and Dax the dog, are pictured inside the CLC HQ.

Did you know Craft Lake City is a nonprofit? That's right, we are a 501(c)3 charitable, nonprofit organization.

When you donate your hard-earned dollars or volunteer your time to Craft Lake City, you make each of our monthly and annual events possible—keeping the community active, educated and aware of local DIY (do-it-yourself) culture.

The DIY Festival is Utah's only multi-day, fully local arts festival. We set out to educate, promote and inspire local artisans while elevating the creative culture of the Utah arts community through science, technology and art—things we could not accomplish without donations from people like yourself. Your time and donations

help to keep Craft Lake City's DIY Festival free to the public. A festival that is free to the public makes it much easier for local artisans, crafters and performers to promote themselves and their work within our community. Craft Lake City's DIY Festival promotes regional spending and encourages the public to shop locally to support these independent artisans, whose crafts are handmade.

To find out how you can contribute to keep Utah's local craft community alive and thriving, visit the Craft Lake City information booth during the festival. You can also make a tax-deductible contribution at any festival exit, at the Craft Lake City information booth or by purchasing tickets to the DIY Festival's VIP Patio (details on pg. 23)!
