

SLUG Magazine's

CRAFT Lake City

presented by

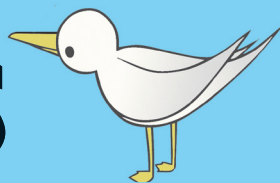

Greetings!

Welcome to *SLUG Magazine's* first annual *Craft Lake City*, presented by the YUDU screen-printing system. Here you'll find the next generation of creative, DIY artists and the tools they use. From handcrafted jewelry to screen-printed posters, you'll experience a wide array of the progressive art emerging from the Wasatch Front.

As a group dedicated to the arts and crafts culture of the everyday genius, the YUDU team at Provo Craft is pleased to sponsor *Craft Lake City*. Today we hope you'll find inspiration for your next great project, and a little entertainment as well. Thanks for being uniquely you, and for your participation in our local handmade community.
